This application has been reopened for further prosecution due to the newly found errors as follows.

The amendment filed July 7, 2009, proposes amendments to the pending claims 2-4, 6-26, that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Amendments to claims subsequent to filing applicant's declaration have substantive changes relative to the originally filed claims in the reissue application. Therefore, applicant is required to file a supplemental declaration containing catch-all error statement. See MPEP 1414.01 & MPEP 1444 (II) for details. Applicant is reminded that this must be signed by the inventor(s) NOT the assignee since this is a broadening application.

Claims 1-4, 6-26, are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR

1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.
